## OBJECTIVE

Curious scientist interested in developing solutions to health problems.

## EDUCATION

Makerere University School of  
Public Health – Master of Health  
Services  
Mbarara University of Science  
and Technology – Bachelor of  
Pharmacy

## KEY SKILLS

Pharmacovigilance  
Large dataset analysis  
Analytical techniques (HPLC, IR  
and NMR spectroscopy)

## EXPERIENCE

*May 2019 to date*

Regulatory Officer • Pharmacovigilance • National Drug Authority

*January 2012 to April 2019*

Supervising Pharmacist • Supervisor • Lubus Pharmaceuticals Ltd

*November 2012 to May 2013*

National Trainer • Trainer • Surgipharm Uganda Limited

I am currently team lead for Adverse Drug Reaction processing at the national medicines regulatory authority. During this time, I have contributed to the exponential increase in reports assessed. I have had previous laboratory training in analytical techniques.

## COMMUNICATION

I delivered a well-received presentation at the 42<sup>nd</sup> Annual Pharmacovigilance Centres in Bogota, Colombia on an emerging adverse drug reaction with a new HIV drug in Uganda. I have also published several issues of the Pharmacovigilance and papers on antimicrobial use and polypharmacy.

## LEADERSHIP

I was Chess captain for the female team at University.  
I currently lead the team for Individual Case Safety Report assessment at the National Drug Authority.
