

19-Feb-2023

Dear Admissions Committee,

It is my honour to write this letter of recommendation for Ms. Mota Mlama for admission into your prestigious institution's MBA program.

Over the course of 8 years, she has worked under my supervision as a software applications developer. During this period, she has demonstrated an excellent work ethic, dedication and integrity in performing her duties.

Mota possesses exceptional problem-solving skills that have proved valuable in providing solutions to complex problems faced by our clients. For example, she has developed software programs to streamline the flow of revenue collection data for our customers. The product has improved the organization of revenue information and simplified financial reporting for those clients.

She is currently leading and coaching a team of 12 developers in creating software solutions to improve business processes within the organization.

For these reasons, I highly recommend Mota as a candidate for your MBA program. If you have any questions or clarifications regarding this recommendation, please contact me at 0767 600 831 or my email at [jstunutu@bot.go.tz](mailto:jstunutu@bot.go.tz), and I will address them accordingly.

Sincerely,

Jeremiah S. Tunutu
