Dar es Salaam, Tanzania

To whom it may concern,

I am pleased to write this recommendation in favor of Caroline Baraza, who has directly reported to me for more than Three years at NMB bank. Caroline joined the bank in July 2018 as Senior Occupational Health and Safety Specialist, the position she is still holding to date. She has given her best with an excellent performance in her duties and has played an excellent role in building Occupational Health and Safety culture across the bank.

Overall, Caroline has good planning and good analytical skills. Her involvement in various NMB Bank OHS activities has demonstrated her ability to effectively plan and deliver whatever that she is required to deliver with quality and on a time. To mention a few, she has been responsible for the coordination of all OSHA and Fire Safety inspections, staff training, and coordinating and management of the vendors providing various services to the Bank. In all these engagements her performance was excellent.

Caroline has excellent interpersonal relations, is socially confident, a good team player, self-motivated, and has good leadership skills hence she will be a good student in her classes at your institution. I am confident that she will excel in the master's program if given admission.

Please feel free to contact me for further information and confirmation.
