RECOMMENDATION FOR MWANGA MICHAEL MUSANI

The above named is our Hospital Director at Soroti Regional Referral Hospital and has expressed interest in pursuing a study leading to the award of Master of Business Administration at ESAMI.

He is a very hard working officer and an excellent team leader at the hospital. Since his deployment at the hospital in 2018, a lot of development has happened because of his strategic management skills. He spearheaded the development of the hospital five year strategic plan 2020/2021 – 2024/2025.

The staffing level has improved from 65% to 80% while financial resources have increased from 6 billion to 8.5 billion during the time he has been with us. He leads a very motivated team of professionals and he has created a good working environment for them no wonder a team of Surgeons were able to separate Siamese twins in June 2021 at the hospital.

He has worked very well with us at the hospital board. To further improve on his skills, I strongly recommend him for the MBA program at ESAMI.

Thank you,

Dr. Ojoome Vincent
Chairperson Hospital Board
