Dear Sir/Madam,

**LETTER OF RECOMMENDATION TO STUDY MASTER OF SCIENCE IN
SUSTAINABLE ENGINEERING MANAGEMENT AT MALAWI
POLYTECHNIC**

I wish to recommend Mr. Synoden Kautsi who was our Senior Civil Engineer, in our department to allow him to undergo post graduate study in Master of Science in Sustainable Engineering Management at Malawi Polytechnic.

As his immediate supervisor, I have known and worked with Mr. Synoden Kautsi from the time he joined the department in the Ministry of Agriculture, Irrigation and Water Development up to August, 2019. He has over this period demonstrated his maturity in handling successfully different water supply and sanitation projects. This has been so because he is hard worker, self-starter and fast learner. Besides possessing the above qualities and experience, Mr. Kautsi is a qualified graduate Civil Engineer hence has good background knowledge and skills that can enable him to successfully complete his post graduate studies in the field of Master of Science in Sustainable Engineering Management.

With above attributes, I have full confidence that if considered, Mr. Kautsi can successfully complete his studies in the field Master of Science in Sustainable Engineering Management. The new skills and knowledge he will acquire during the studies will help him to handle competently various challenges in water sector.

Lastly, I will be delighted and ready to provide you with any further information about Mr Kautsi

Emmanuel Chiundira

PRINCIPAL WATER RESOURCES DEVELOPMENT OFFICER
