**Re: Recommendation for Daniel Mwaijonga**

Daniel Mwaijonga is employed by Shell Exploration and Production Tanzania Limited as a Controller, and I have been his line manager for the past four years and half, and a colleague for an even longer period.

I can attest that Daniel uses best endeavors at all times to perform his work conscientiously and expeditiously. Furthermore, he has a very sociable and pleasant personality, and expresses his opinion respectfully in multiple settings whether in small team discussions or interactions with external stakeholders.

Daniel has a great working attitude which over the years has enabled him to successfully pursue Chartered Management Accountant (United Kingdom) and Certified Public Accountant (Tanzania) with 100% pass rate of all exams taken, while at the same time fulfilling his responsibilities at work very well.

In my opinion, Daniel has the necessary character, dedication, and approach to not only successful undertake your course but also to positively contribute. It is with pleasure and without hesitation I recommend him highly to your programme and may be contacted for further information.

Yours faithfully,

Ahmad Gulamali
