

STATEMENT OF PURPOSE

I am applying for a Masters degree in Business Administration offered by ESAMI Africa, because I am very interested in the topics covered particularly on policy analysis and project management. My interest in these areas was first aroused once I took a senior position in an international NGO working very closely with government institutions. I have 10 years of working experience in finance department in different organizations and I would like to cement my expertise on that area. Currently my main role is to lead the finance team to ensure timeously delivery and the outputs are of great quality and accuracy.

By taking, the degree from ESAMI Africa will definitely strengthen my expertise corporate governance and team management due to the reputation of the university and the quality of the education offered. I am particularly keen to study at ESAMI Africa because of your research interests in management and your reputation of excellence in these fields. The international reputation of the department attracts such a variety of students and I believe it will be a stimulating environment in which to study at Masters Level. Your university also provides excellent working and recreation facilities for graduate students, which demonstrate your commitment to the graduate student body.

Apart from the wonderful results that I have achieved in my CPA (T) examinations on International finance, I am also planning to seat for procurement certification in 2023 so that I can further cement my expertise operations and procurement processes. The program that I am applying for will make my knowledge in those areas even much stronger.
